

Hollard Living Annuity Simply Put

The Hollard Living Annuity is a flexible investment option if you are retiring and need to invest your retirement savings to earn a regular income during retirement.

KEY FEATURES and benefits

- Flexible regular income payments which can be adjusted on an annual basis. You can select an income of between 2.5% and 17.5% of the value of the investment and have the option to be paid on a monthly, quarterly, bi-annual or annual basis.
- Control, choice and flexibility regarding the investment options into which your living annuity is invested. Choose from a range of carefully selected Unit Trust funds from reputable asset managers, as well as Hollard of course, and change your selection at any time free of charge.
- Any value left in the investment when you pass away will be paid out to the beneficiaries you have specified for your policy.
- The policy is exempt from estate duty and executor's fees.
- The investment is not guaranteed and should the value of the investment reach zero then no further income payments from the investment will take place. You are therefore liable to take and manage the risk of outliving your money.
- To help give your investment a head start, no upfront administration fees are charged by Hollard.

- Download an application form and investment portfolio list from the Hollard website www.hollard.co.za, or ask your Financial Advisor.
